Handleap, a free handleap, and three purse ding a steeplechase with the largest number of horses that ever started on a hunt over Picnic Hill, drew a great crowd to Jerome Park yesterday. The sport bristled with enmoment during the bright autumn afternoon. The Champagne Stakes for two-year-olds brought eight out for the run of three-quarters of a mile, three of which, Lon Carlos, Ven-geance, and Blithesome, came from Mr. J. B. Haggins's stable. Mr. Cornehlson's gelding King Crab was a hot favorite, Bilthesome having the second call, and Mr. Withers's Cadence filly third choice. The Cadence filly headed the firing group at flag fall, pressed by Don order. Peeress and the Cadence filly made the

silly third choice. The Cadence filly headed the fiving group at flag fall, pressed by Don Carlos and Feeress, and the Cadence filly made the running in the closest kind of a race, with the Haggin three and Fordham all in the brunt of the fight. Fordham taking second place when well into the homestretch, and, running out, with the Cadence filly winning by a head. Bitthey me ame third, a length and a half away, withers never names his horses until they win. After the race he christened his winning filly Cascade. It was her fifth nee of the year. She is a shapely, medium-stood racer, and made a good show in the Homebred Produce Stakes, coming some the Homebred Produce Stakes, coming and to Now or Never.

The separation of the day came in the Manhattan Handicap, a race of one mile and a grater, in which Lucky Baldwin's race horse volastry a bale of money for the talent. PRISE FIGHT NEAR WASHINGTON.

Johnny Motahun Wins from Billy Your on a Foul in the Eighteenth Round, WASHINGTON, Oct. 6 .- Several hours before the sun came up this morning a long line of hacks were driven rapidly through the city and headed toward the Maryland shore of the Potomac. At the navy yard three detectives and two mounted policemen joined the pro-cession. No attention was paid to them, however, and the crowd proceeded to a farm house ever, and the crowd proceeded to a farm house about a mile beyond the District line. Then a halt was made, while Johnny Monahan of New York and Billy Young of Baltimore were hur-riedly taken out of bed and placed in full ring costume. Monnhan is 20 years old, and weighed 150 pounds. This was not his first experience in the ring, but it was his first important battle. Young is 25 years of are, and weighed 150 pounds. He has fought a dozen or more battles, the most notable of which were the thirty-seven-round contest hero, in which he defeated Charley White, last winter, and a draw with Johnny Murphy. The men entered the ring at 5 o'clock in full fighting costume. Fathetic efforts were made for two pairs of kid gloves, and at one time it looked as though the fight would take place with bare knuckles. A handsome New York newspaper man, however, supplied the deficiency, while Frank K. Ward made a circuit of the ring and attempted to collect \$3 from each of the spectators. Of some 250 present thirty-one paid, and as Mr. Ward announced that mournul fact he said that rather than not have a fight he would add another \$100 to the purso. An old sport known to the puglilistic fraternity as "Upele Charley Godfrey" was chosen referee. Patsy Morgan, a prominent saloon keeper, acted as timekeeper. Jimmy Keenan of New York seconded Monahan, and Jack Hooney looked after the interests of Young. The men and their seconds shook hands, and "Uncle Charley" announced that it would be a fight to a finish, the Marquis of Queensberry rules to govern the contest.

Bouns 1.—Both men fanned the air for a minute, and Monahan made a vain attempt to swing on Young's law. This was cieverly ducked, however, and Young responded by knocking Monahan down on his hees.

Bours 2.—Monahan assumed the offensive, but Young kept him away until the cose of the round, when he cut alwest gash over the New Yorker's left eye.

Bours 3.—Young attempted to play upon Monahan's damaged eye, but he received some singers on the head which raised bug purple immps on his forebeat.

Bours 3.—Young attempted to play upon Monahan's damaged eye, but he received some singers on the head which raised bug purple immps on his forebeat.

Bours 5.—Sonahan opened the round with a straight right hand costume. Monahan is 20 years old, and weighed 150 pounds. This was not his first ex-

fight, and he proposed to do all he could to have their wishes gratified.

Roown 12.—Nomahan went at Young hammer and tongs. Its repeatedly caught Young with left-handed upper cuts and had not time been called he would have went the fight.

Recup 15.—This round was a succession of clinches and but little damage was done to cliner man. Young began to grow mere cantious of Monahan's whoked left hand. He again fouled Monahan, striking him a hard blow in the face after the referee had ordered the men to break. The claim was made by Monahan's seconds, but not allowed.

blow in the face after the referre had ordered the men to break. The claim was made by Monahan's seconda, but not allowed.

Rounn 15.—Monahan jumped at Young like a tiger. Three successive times he landed on Young's mouth, cutting his lip and drawing a stream of blood. Young devoted his attention to Monahan's ribs, but his blows lacked force and did but little execution.

Rounn 16.—Young came up fresher. He landed a smasher on roung came up fresher. He landed a smasher on roung came up fresher the latter resmander on a condense on Young's notitle. Both men were covered with blood and Young's right sye began to look as though it had been kicked by a mule.

Rounn 17.—Monahan went in with the evident intention of ending the fight there and then. He fought Young all over the ring and drew blood at almost every blow. Young was also busy with the cut over Munahan's left eye, which he enlarged.

Rorn 18.—There was some eparring forwind, and then Monahan swung for Young's jaw. He missed, and got a good rib-roaster that brought forth a grant, which could be heard half a mile. The men clinched, and the refere ordered them the brown the forth a grant, which could he heard half a mile. The men clinched, and the refere ordered them the day of the reference of the stream of the stream and hit him a heavy blow behind the ear. Monahan stagered but did not fall. Foul was claimed and allowed, and the fight and stakes were awarded to the New Yorker.

New Yorker.

Young wanted to go on and fight to a finish, but even his friends acknowledged that he had lost the battle fairly. The betting started off with Young a slight favorite, owing to his greater experience, but after the third round odds of 5 to 3 were offered and taken on Monahan. It is estimated that about \$2,500 changed hands. Young has challenged Monahan to fight again, and Monahan has accepted. The men will try conclusions once more in about three weeks.

the first series 5 % cent. bonds. The opposition party in these bonds appears to be going to pieces despite the brave talk it induiges in. A large proportion of the bonds that have heretofore rejected the plan of reorganization were deposited under it to-day. The theory of the boars has been that the holders of these bonds could force a foreclosure sale of the Reading property. The few that remain cannot force such an issue, for if their claims are not disposed of in a compromise the amount can be deposited with the court and the reorganization progress, leaving this side issue to be disposed of later on. The supposition that the successful reorganization of the Reading property is to be seriously impeded by the opposition of so small a proportion of the comtion party in these bonds appears to be going to pieces despite the brave talk it induiges in. opposition of so small a proportion of the com-pany's securities is hardly worthy of a moment's consideration. This view has un-doubtedly been held by those most interested all along, and now apparently the short interest in the stock is beginning to appreciate it.

Mary Anderson Company works are the Seases of 1888—Three Fameus Weese.

The stories that have been floating about recently concerning Miss Anderson's intense and overwhelming love for everything English, and her coldness toward America appear to be without foundation. The statuesque young comedienne is coming back to America, under the management of Mr. Henry E. Abbey, next year, opening her season on the 1st of October. She will probably appear at the Star Theatre on her return. Miss Anderson is at present playing at the Lyceum Theatre, in London. with very great success, and she will bring over several of the leading people who are now playing with her at the Lyceum. The matter was closed yesterday by cable. Miss Anderson has been overwhelmed with applications from American managers ever since she left the country, but Mr. Abbey has, as usual, captured the prize. With Bernhardt, Patti, and Mary Anderson on his hands, the American manager will control the movements of the road, and three or four theatres on his hand noxt season.**

unknown limits. It is a question if the street is not bearish on account of its own mistortunes rather than because of the outside conditions affecting values. What the market wants more than anything else is buyers, and beyond a doubt the more influential class of these has been systematically kept out of the market, not only by the larger interests that have been bringing about the results referred to but also by the continuous clamor of the street for lower prices.

The volume of business to-day was large, with Western Union leading in point of activity, and supplying nearly one quarter of the business. leading, reckoned as full stock, supplied nearly as much, and St. Paul, which ranked third, supplied one-sixth of the transactions. Outside of these three there were no features. Western Union advanced about 2½ to cent, during the first hour before it was known that the telegraph matter had been disposed of. The rest of the day if held steadily in the neighborhood of 79, and closed 1½ cent, higher than yesterday, at 79½. Reading really contributed mores to the strength of the general list than Western Union, and it also scored a little larger net gain. In Reading there was less of the feeling that good news had been discounted, and besides. Western Union was repressed somewhat by uncertainty as to the amount of new stock to be issued and the disposition to be made of it. St. Paul advanced in part upon liberal covering of short contracts and possibly because insiders regard the property more favorably than they did, at least from a speculative point of view. Those who expected to-day's market to develop into a rampant speculation overlook the condition it has been in for some months past and are as unroasonable in their expectations as they would be to expect a convalescent to perform the task of a well man.

In the Unitsted Department there were sales of New York, Chicago and St. Louis 1sts, deliverable when issued, at 86 to 86½ St. Paul, Eastern and Grand Trunk 1sts at 99½ to 100, Cotton Oil Trusts at 28½ to

A USEFUL PRECAUTION.

It is a useful precaution for the tourist, the commer cial traveller, or the emigrant to the West, to take along Hostetter's Stomach Bitters. Invalids who travel by steamboater rail should provide themselves with it, in steamboat or ran anound provine inemseries which in order to prevent or remedy the nauses which the jarr-ing and vibration of vehicles in transitu often causes them. Vastly preferable is it for this simple, but need-ful purpose, to the heady unmedicated stimulants of commerce. On board ship it not only remedies sea sickness, but neutralizes the pernicious effects of water slightly brackish, which, if unqualified, is apt to give rise to irregularities of the bowels, cramps in the abdominal region, and dyspepsia. To the aerial poison of malaria it is an efficient antidote. Sick headache, heart-burn, and wind upon the stomach, are promptly ben-fahed by it. It healthfully stimulates the kidneys and bladder, and nullifies the early symptoms of rheumatism

SOME STARTLING FACTS.

The Biscovery of the Cause of Most Un-Simely Beaths that Come Upon the Community.

The official returns of the city of New York show that nearly three fourths of all deaths are from consumption. When we stop to calmly think over this fact it is really awful. And yet every case, without exception, started from small beginnings. A cough in the morning; tickling in the throat: A thick phicamy discharge; chilliness at night; difficult breathing; a tightness across the chest; hese and many more symptoms indicate the presence of that terrible disease which, unless checked, means certain death, with long and painful suffering.

certain death, with long and painful suffering.

In view of such serious and ever-present facts the suggestions and advice of the most emiment physicians are of the greatest value.

Dr. John Gardner, one of the most eminent physicians in London, says: "Science, common sense, Holy Seriptures, and all experience testify to the benefits derived from the use of pure whiskey."

Dr. D. H. Barker says: "I have used and examined

Dr. D. H. Barker says: "I have used and examined Duffy's Pure Malt Whiskey, and find it the best I ever tried."

Dr. S. M. Buckwalter says: "Duffy's Pure Malt Whisker is, without doubt, the invalid's drink when stimulants are indicated, and I find all chronic cases require stimulants, and a large per cent. of the soute ones also." These truths, from the lips of the leading scientific men of the day, and confirmed by the experience of men and women well known in the community, should serve as a guide for all who feel the approach of consumption, no matter by what path it may come. We do not becitate to assert that any man or wohan who will use Juffy's Pure Mait Whiskey according to directions can dely con-sumption and prolong life, with all its blessings.
